## LYNN ELECTRIC SECURITY 24 Hour Monitoring

### Advance Technology. 24 Hour Protection.

Lynn Electric Security Customer Monitoring Centers help protect the people and things you value most, 24 hours a day, 7 days a week. We form a comprehensive network of interconnected command centers strategically located throughout the region. This gives Lynn Electric the ability to offer you continuous security.

### How Lynn Electric Monitored Security Works.

When an alarm signal is received from your home or business, our professionals can alert both you and the police, fire department or emergency personnel right away. So, whether you're there or away, you have protection, which acts like an invisible blanket around the people and things that value most to you.

### With Lynn Electric, You're Always Connected.

At ADT, we have a comprehensive network of dedicated Customer Monitoring Centers backed by powerful equipment and trained professionals. This gives us the ability to offer continuous security through our advanced monitoring systems and ultimately providing you with peace of mind.

### When We Say We're Always There - We Really Mean It.

Our Customer Monitoring Center is supported by multitiered disaster preparedness procedures. So each can operate at optimal levels under a variety of adverse conditions. Monitoring professionals have the support of powerful computers and secure communications links with multiple backup systems. Which means you can always rely on Lynn Electric in an emergency.
